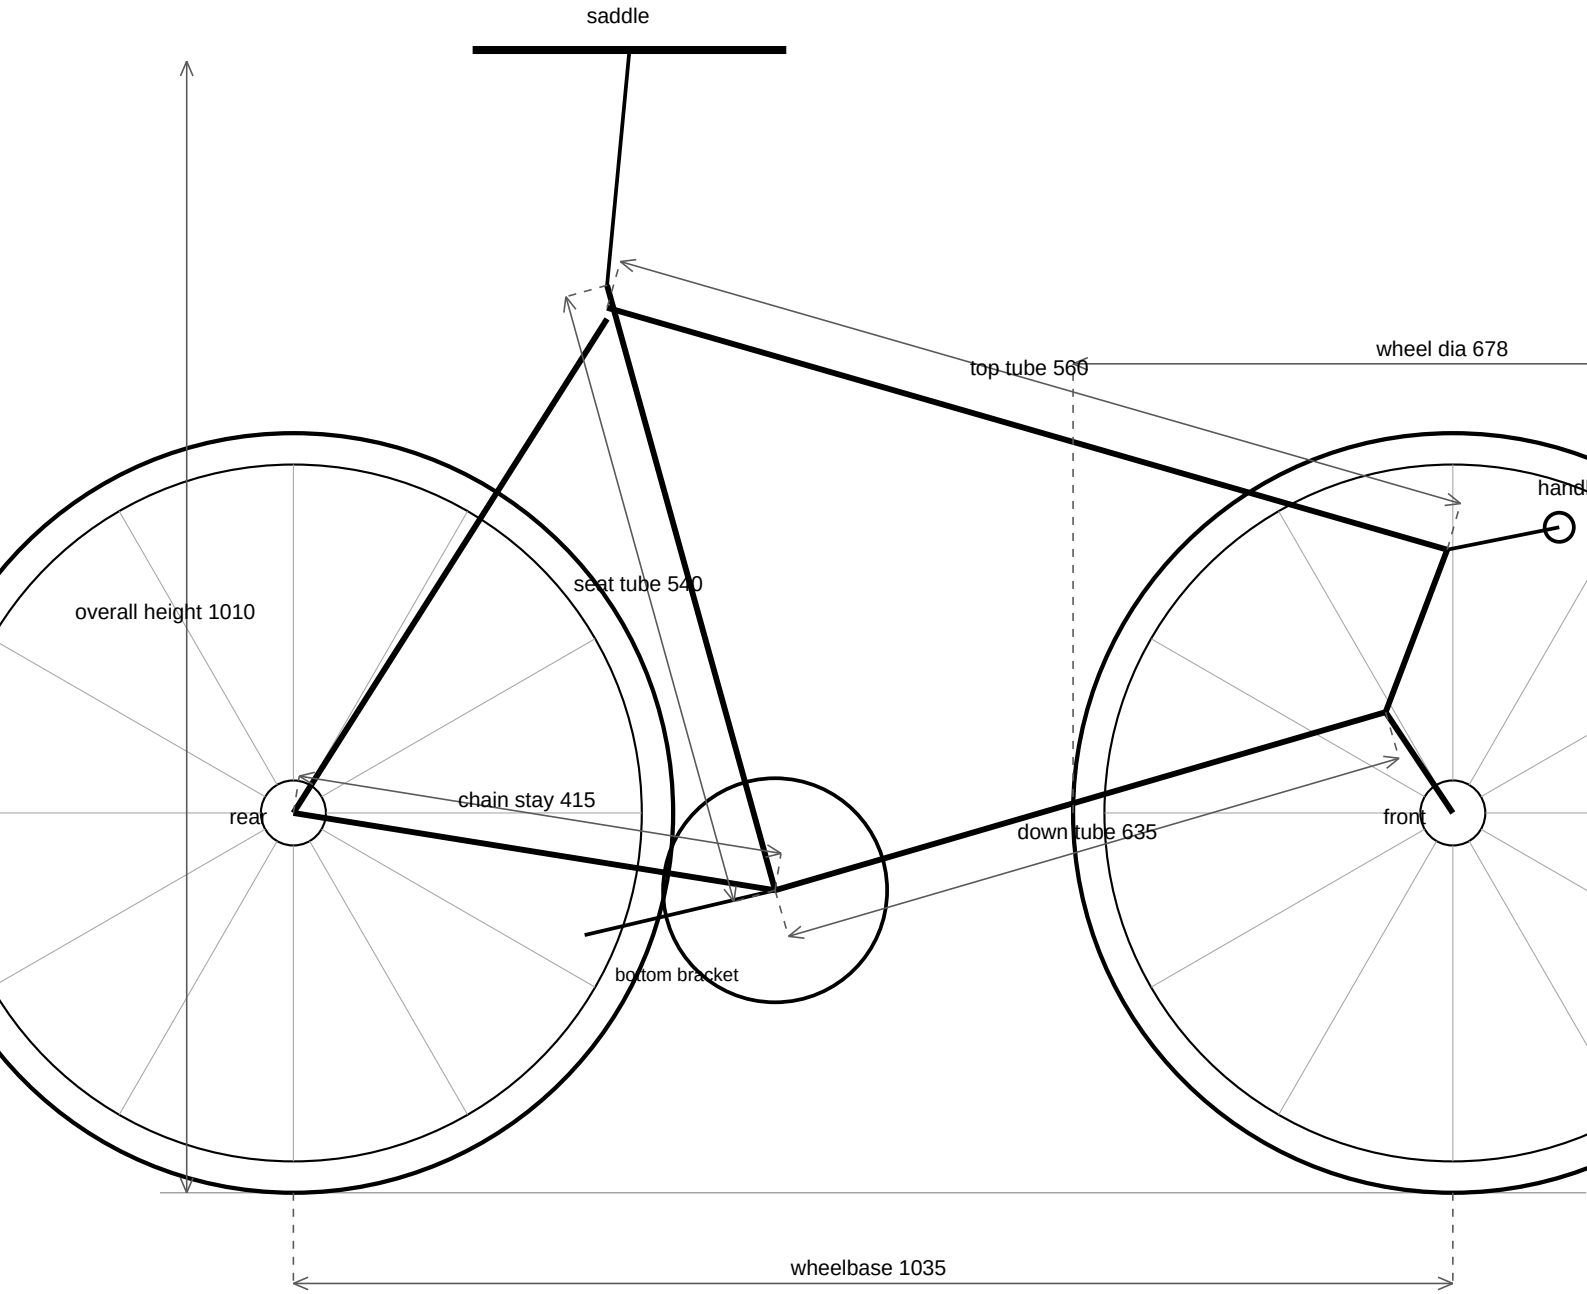
ROADSTER 700C BICYCLE - SIDE ELEVATION

All dimensions in millimetres. Drawn to scale.



NOTES

The frame is a diamond: seat tube and head tube joined by the top tube above and the down tube below, with chain stays and seat stays running back to the rear hub. The rear wheel is at the left of this drawing and the front wheel at the right; they are in line, one behind the other, not side by side.

Wheel diameter over tyre	678 mm	Head tube length	145 mm
Rim diameter	622 mm	Head tube diameter	44 mm
Tyre width	28 mm	Chain stay length	415 mm
Hub diameter	58 mm	Seat stay length	530 mm
Spokes per wheel	32	Fork blade length	370 mm
Top tube length	560 mm	Crank arm length	170 mm
Down tube length	635 mm	Chainring diameter	200 mm
Seat tube length	540 mm	Handlebar width	440 mm
Wheelbase	1035 mm	Saddle length	280 mm
Overall height	1010 mm	Seatpost diameter	27 mm

Frame: TIG welded steel, gloss black. Rims and bars: polished aluminium.
